

The logo features the word "DYNACON" in a bold, white, sans-serif font, centered within a dark blue oval. To the left of the oval, there is a vertical stack of four overlapping, semi-transparent shapes in shades of green, yellow, and red, creating a dynamic, multi-colored effect.

DYNACON

An ISO-9001:2000 Company

COATINGS.....for every surface

INTRODUCTION

Dynacon is an independent privately owned company, which commenced business 10 years ago. The company was set up when the current Directors started the manufacturing and trading of paints and chemicals.

Driven by the tremendous experience and technical genius of Shri Nirbhay Kapoor, Mr. Pankaj Gupta and Mr. Rajesh Sharma, our team of dedicated personnel including chemical engineers, management graduates and many other professional in determination to achieve leadership in our line of business. Our product range consists of various paints, polishes, lubricating products, protective, adhesives, cosmetics and chemicals.

Quality of our products is defined, as it is perceived by our customers. The major factor behind our success is our market driven approach and uncompromising attitude with respect to quality. We have a well-defined & stringent quality assurance system wherein all employees of Dynacon Cares are responsible for quality.

To further exploit our core competencies and compete in the global market, we have laid great emphasis on Research, Improvement and Innovation. Our R & D Division, intensive research on subjects like paints and Chemicals and has given us the honour of developing some of the most advanced technologies worldwide. We use state-of-the-art plant and machinery conforming to global standards for production.

Production is supervised by a team of production engineers who ensure continuous technical up gradation by modifying and improving the production processes from time to time. A separate team of project-engineers and technicians handles the continuously evolving and expanding manufacturing facilities.

Dynacon Cares Ltd. is proud of its reputation for high quality products and dependable service over many years and continues to embrace new challenges and opportunities. We recognize that our future depends upon maintaining our products quality, efficiency and competitiveness in the markets in which we operate.

We are committed to understanding and meeting the needs of our customers. We aim to provide products and services to support our clients' critical business improvement issues. There are many examples of how we

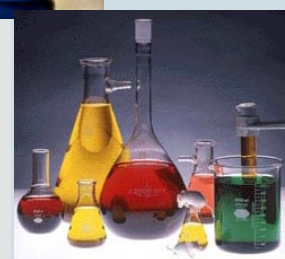

INTRODUCTION

- ★ **Dyna Protective Px-7** - Used as general services preservative.
- ★ **Dyna Oil Ox-320** - Used as a lubricant for slides and gradle guid ways, certain breech mechanisms and gum equipment.

SOAPS & DETERGENTS

The in-house expertise can tackle tough issues in laundry, warewash, institutional cleaning and janitorial service. Your queries on equipment, equipment operations, applications, appropriate product selection and/or product use will be addressed promptly and accurately. We can custom design products and packages that will address any unique cleaning problem you may encounter.

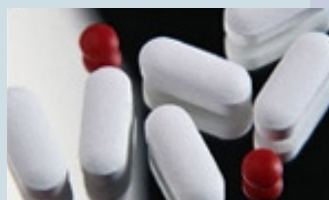

- ★ **Dyna Soap** - Used for general washing and Laundry cleaning purpose.
- ★ **Dyna Soft Soap** - Used for general washing and cleaning purpose and for indus. purpose in the form of aqueous solution.
- ★ **Dyna Liquid Toilet Soap** - Used for specific purpose such as those for industrial and surgical uses.
- ★ **Dyna Detergent Cake** - Used for general washing and cleaning purpose .
- ★ **Dyna Detergent Liquid** - Used for general washing and cleaning purpose .
- ★ **Dyna** - Used for general washing and cleaning purpose.
- ★ **Dyna Synthetic Detergent** - Used for washing woollens, silken and synthetic fabrics.

COSMETIC

Our extensive range of body care products such as Powders, Oils, Room fresheners, bath gels and herbal moisturizers & shampoos. We can custom design products and packages that will address any body care requirements.

All the products are tested by the team of experts against standard specifications. Each batch is inspected for its contents and each container is tested for the message printed on it. Special care is taken in the weighing of the product to see that exact quantity is being dispatched to the client. Microbiological analysis is conducted on all incoming ingredients so that we offer safe products to the user.

INFRASTRUCTURE

PAINTS

GENERAL INDUSTRIAL

A wide selection of products for use in general industrial applications. Included in this range are primers, finishes and more specialist coatings.

- ★ Etch Primers & Solutions
- ★ Anti Corrosive Primers & Intermediates
- ★ Clear Lacquers
- ★ Finishes
- ★ Hammer, Metallic & Effect Finishes
- ★ Mining Paint
- ★ Bituminous Paint

WATER BORNE PAINT

Fast drying water borne primers and finishes suitable for application onto a wide range of ferrous and non-ferrous metal surfaces.

- ★ Water Borne Primers
- ★ Effect and Gloss Finishes
- ★ Intermediate Coats

MAINTENANCE PAINT

A wide range of coatings suitable for use in general maintenance applications on both interior and exterior surfaces.

- ★ Interior Emulsion Paint
- ★ Maintenance Paint
- ★ Bituminous Paint
- ★ Varnish & Lacquer
- ★ Acid & Alkali Resistance Products.
- ★ Coal Tar Based Products

HIGH SOLIDS, LOW VOC

High solids gloss and semi-gloss finishes offering excellent durability on a wide variety of surfaces. Can be used as single coats or as part of a full sequence.

- ★ Single Coat Metal Finishes
- ★ Top Coats

ACID & ALKALI RESISTANCE

A special coating system developed to resist the attack of various acids. Also has a unique application in hygroscopic process Plants.

- ★ Primers & Solutions
- ★ Intermediate Coats
- ★ Top Coats

PRODUCT RANGE

INDUSTRIAL PAINT

Coatings suitable for use on surfaces with high operating temperatures. Typical applications for these products include boilers, industrial ovens & chimneys, exhausts, gas fires, wood burning stoves and barbecues.

- ★ Heat Resistant - Temperatures up to 250°C and over 250°C
- ★ Epoxy Paints
- ★ PU Paints
- ★ Aluminium Paints
- ★ Fire Retardant Paints

HIGH PERFORMANCE

A range of coatings that are highly durable and impact resistant while providing protection to surfaces subject to chemical and corrosive atmospheres.

- ★ Two Pack Epoxy Coatings
- ★ Chlorinated Rubber
- ★ Two Pack Isocyanate Free Acrylics

DEFENCE COATINGS

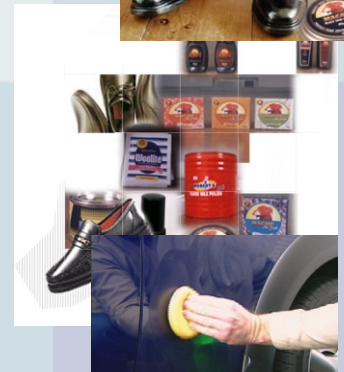

A range of coatings that meet the requirements of various defence standards.

- ★ General Service Paints
- ★ Stoving
 - ★ Heat Resisting
 - ★ Top Coats

POLISH

The company has a state of the art plant and equipment & machinery for making Polish Products. Systems and Tests are Product Performance driven and strive to live up to the Commitment of delivering.

- ★ **Shoe Polish, paste** - For shoeshine and leather article.
- ★ **Automobile Polish** - For polishing automobiles.
- ★ **Metal Polish** - For polishing to copper, brass, bronze, zinc, steel and allied metal.
- ★ **Silver Polish** - For polishing to silver, gold, aluminum, electroplated nickel and Chrome surface.
- ★ **Multipurpose polish** for the surfaces what ever you think.
- ★ **Shoes Polish Liquid** - For shining to leather footwear.
- ★ **Polish Liquid** - Application to canvas footwear and webbing equipments.
- ★ **Balnco Cake** - For even shade and finish to webbing equipments.
- ★ **Shoe Polish Cream** (In collapsible tube) - For leather shelf life article to give high gloss, protection weather resistance and maximum softness.

PRODUCT RANGE

With years of experience serving these diverse needs, we have developed a thorough understanding of these unique requirements. The company's extensive knowledge and unparalleled expertise is demonstrated by the

fact that, not

only do they hold a number of current Military approvals, but also provide technical input into the development

of new specifications for the latest military lubricants. The Company is registered with **DGQA (for defence)** and **RDSO (for Railways)**. The company is a continuous supplier of its entire product range to various Indian defence organisations - **Air Force, Naval, CISE, BSF and DRDO** and **Indian Railway Divisions and Coach Manufacturing Units**.
